JUNE 2017

The Consumer Price Index for June 2017 increased by 0.7 per cent, the highest monthly movement for the calendar year. This was due mainly to increases in the index for the three heaviest weighted divisions, 'Food and Non-Alcoholic Beverages' 1.1 per cent, 'Transport' 0.4 per cent and 'Housing, Water, Electricity, Gas and Other Fuels' 0.4 per cent. The upward movement in the 'Food and Non-Alcoholic Beverages' division was impacted by the flood rains in mid-May which disrupted the supplies of agricultural products resulting in a 3.7 per cent rise in the class 'Vegetables and Starchy Foods'. The increase in the 'Transport' division was due mainly to increased petrol prices due to higher world oil prices. For the 'Housing, Water, Electricity, Gas and Other Fuels' division, higher electricity rates was chiefly responsible for the movement of the division as the class 'Electricity, Gas, and Other Fuels' rose by 1.1 per cent. However, the overall movement of the division was tempered by the 1.3 per cent decline in the class 'Water Supply and Miscellaneous Services Related to the Dwelling' occasioned by lower water and sewage rates. Other notable increases were recorded in the following divisions: 'Restaurants and Accommodation Services', 0.6 per cent and 'Recreation and Culture', 0.4 per cent.

The calendar year-to-date inflation rate was 2.1 per cent, the point-to-point 4.4 per cent and the fiscal year-to-date 1.1 per cent.
