JUNE 2020

The All Jamaica Consumer Price Index was 105.2, resulting in a 1.4 per cent inflation rate for June 2020. This increase was mainly attributable to the 3.6 per cent increase that was recorded in the index for the heaviest weighted division 'Food and Non-Alcoholic Beverages'. Prices continued to trend upwards for agricultural produce especially Irish potato, yellow yam, carrot and lettuce for the review period. This led to the 14.4 per cent increase in the index for the class 'Vegetables, tubers, plantains, cooking bananas and pulses'. Other notable divisional increases registered were: 'Clothing and Footwear' which moved upwards by 0.5 per cent with 'Health', 'Furnishings, Household Equipment and Routine Household Maintenance' and 'Personal Care, Social Protection and Miscellaneous Goods and Services' each increasing by 0.4 per cent. These increases

however, were tempered by the declines in the index for the divisions 'Housing, Water, Electricity, Gas and Other Fuels' down by 0.3 per cent and 'Transport' by 0.1 per cent. For the former division, this fall was as a result of the reduction in the rates for electricity while, for the latter division lower costs for petrol were recorded.

The fiscal year-to-date inflation rate was 1.4 per cent at the end of the second quarter.
