MAY 2020

The All Jamaica Consumer Price Index inflation rate for May 2020 was 0.1 per cent. This increase was largely as a result of the 1.1 per cent increase in the heavily weighted 'Food and Non-Alcoholic Beverages' division. Higher prices for agricultural produce such as cabbage, lettuce and potato resulted in the index for the class 'Vegetables, tubers, plantains, cooking bananas and pulses' moving up by 2.3 per cent.

Also contributing to May's inflation rate was an increase of 1.5 per cent in the index for the division 'Housing, Water, Electricity, Gas and Other Fuels'. This was due mainly to an increase in electricity rates, which resulted in a 5.6 per cent upward movement in the index for the group 'Electricity, Gas and Other Fuels'.
