

JUNE 2025

RELEASE DATE: July 31, 2025

PERCENTAGE CHANGE FOR MINING & QUARRYING INDUSTRY

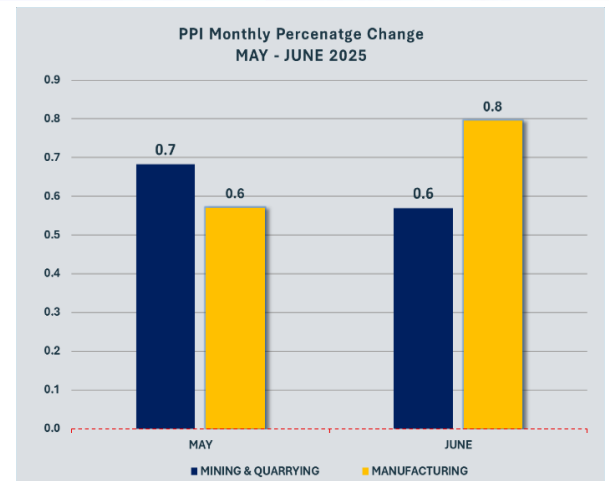

MONTH	YEAR	(%)
JUNE	2025	+0.6
May	2025	+0.7
April	2025	-12.0
March	2025	+0.5
February	2025	+0.4
January	2025	-19.3
December	2024	-0.1
November	2024	+0.3
October	2024	+30.5
September	2024	+0.5
August	2024	+0.5
July	2024	+13.3
June	2024	+0.6

PERCENTAGE CHANGE FOR MANUFACTURING INDUSTRY

MONTH	YEAR	(%)
JUNE	2025	+0.8
May	2025	+0.6
April	2025	+0.1
March	2025	-0.6
February	2025	+0.3
January	2025	+0.4
December	2024	-0.6
November	2024	0.0
October	2024	+0.2
September	2024	-0.6
August	2024	-0.7
July	2024	+0.7
June	2024	+0.6

HIGHLIGHTS

For June 2025, the Producer Price Index (PPI) for the **Mining & Quarrying** industry increased by 0.6 per cent. This was mainly driven by a similar 0.6 per cent increase in the index for the major group 'Bauxite Mining & Alumina Processing'. Additionally, the PPI for the other major group, 'Other Mining & Quarrying', went up by 0.1 per cent.

The index for the **Manufacturing** industry increased by 0.8 per cent. The main contributors to this increase were the major groups: 'Food, Beverages & Tobacco' (0.1%), 'Refined Petroleum Products' (3.5%) and 'Paper and Paper Products' (2.1%). The overall increase in the industry was, however, offset by a decrease of 0.1 per cent in the index for the major group 'Chemicals and Chemical Products' (**Table II**).

POINT-TO-POINT

For the period **June 2024 – June 2025**, the point-to-point index for the **Mining & Quarrying** industry increased by 8.5 per cent. This was largely due to an increase of 7.8 per cent in the index for the major group 'Bauxite Mining & Alumina Processing'.

The point-to-point index for the **Manufacturing** industry went up by 0.6 per cent. This was primarily due to a 3.1 per cent increase in the index for the major group 'Food, Beverages and Tobacco'. The industry's overall increase was, however, tempered by a 9.5 per cent fall in the index for the major group 'Refined Petroleum Products' (**Table II**).

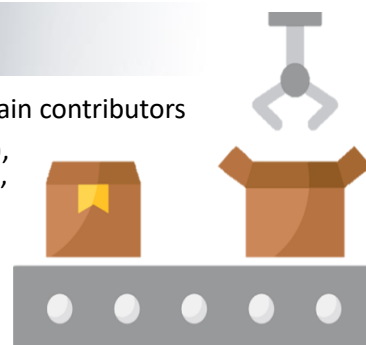

Mining & Quarrying Industry

In June 2025, the index for the **Mining & Quarrying** industry rose by 0.6 per cent. The index for the major group 'Bauxite Mining & Alumina Processing' went up by 0.6 per cent, while the index for the major group 'Other Mining & Quarrying' increased by 0.1 per cent (**Table II**). These increases were attributed to the depreciation of the Jamaican dollar relative to the United States dollar.

Manufacturing Industry

The PPI for the **Manufacturing** industry increased by 0.8 per cent. The main contributors to this increase were the major groups 'Food, Beverages & Tobacco' (0.1%), 'Refined Petroleum Products' (3.5%) and 'Paper and Paper Products' (2.1%). The industry's overall movement was, however, tempered by a 0.1 per cent fall in the index for the major group 'Chemicals and Chemical Products' (**Table II**).

FOOD, BEVERAGES & TOBACCO

The index for the major group 'Food, Beverages and Tobacco' rose by 0.1 per cent in June 2025. The upward movement in the industry's index was primarily due to higher prices in the group 'Manufacture of Other Food Products' (0.4%). The sub-groups with increases in their index were: 'Bakery Products' (0.2%), 'Sugar, Cocoa, Coffee, Chocolate & Sugar Confectionery' (1.2%) and 'Seasoning, Spices, Sauces and Condiments' (0.2%). These increases were mainly attributed to higher raw materials, packaging and labour costs as well as the depreciation of Jamaican dollar vis-à-vis the United States dollar.

OTHER MAJOR GROUPS IN THE MANUFACTURING INDUSTRY

The index for the major group, 'Refined Petroleum Products' increased by 3.5 per cent mainly due to higher prices for crude oil on the international market. There was also an increase in the index for the major group 'Paper and Paper Products' of 2.1 per cent, mainly due to an increase in labour, shipping and production costs.

There were also increases in the index for the other major groups within the industry: 'Textile, Wearing Apparel and Leather Products' (0.2%), 'Fabricated Metal Products excl. Machinery & Equipment' (0.1%) and 'Other Manufacturing n.e.c.' (2.4%). These increases were mainly due to higher operational costs and the depreciation of the Jamaican dollar relative to the United States dollar. The overall increase in the industry was, however, moderated by a 0.1 per cent decline in the index for the major group 'Chemicals and Chemical Products', due to fluctuations in packaging and freight costs.

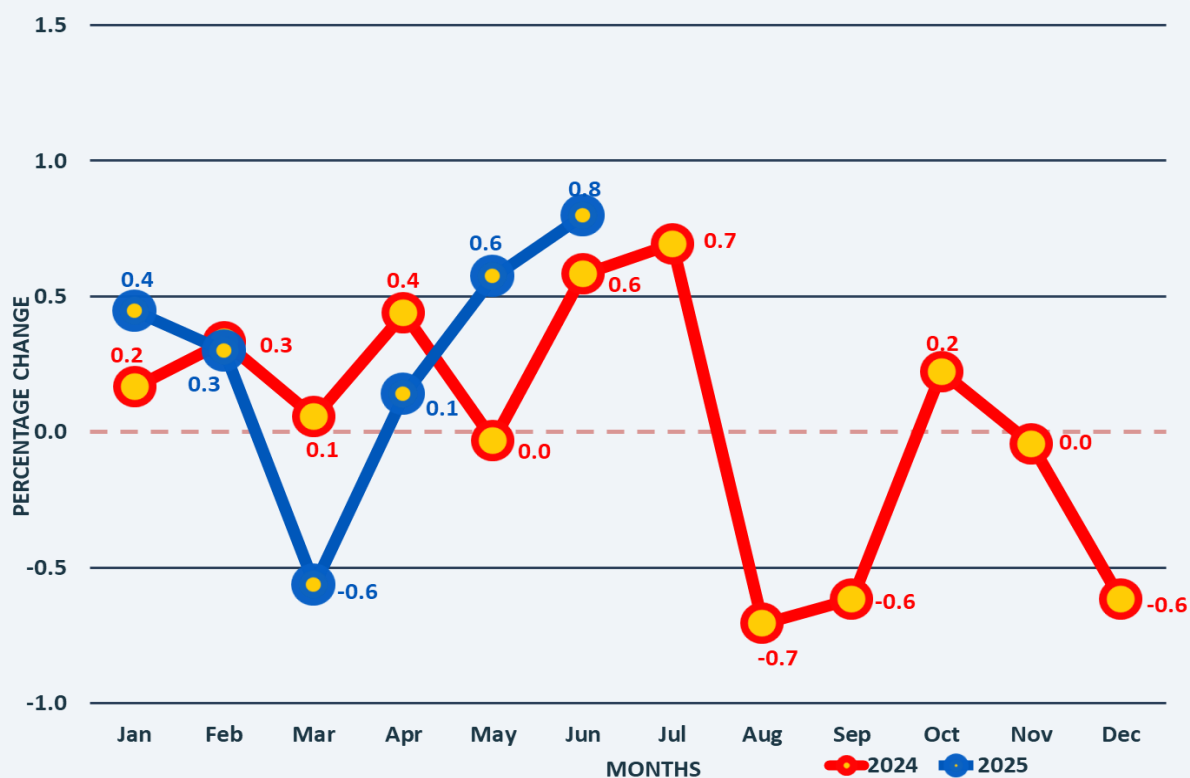

FIGURE II. MONTHLY PERCENTAGE CHANGE IN THE PPI FOR MANUFACTURING, JUNE 2024 – JUNE 2025

TABLE I: MONTHLY PRODUCER PRICE INDEX BY INDUSTRY, APRIL 2025 – JUNE 2025

INDUSTRY	Months		
	Apr-25	May-25	Jun-25
MINING & QUARRYING	245.7	247.3	248.7
Bauxite Mining & Alumina Processing	240.4	242.0	243.5
Other Mining & Quarrying	294.1	295.8	296.2
MANUFACTURING	275.5^r	277.1^r	279.3
Food, Beverages & Tobacco	285.4	286.7^r	287.1
Production, Processing & Preserving of Meats, Fish, Vegetables, Oils and Fats	299.4	299.4	299.5
<i>Meat & Meat Products and Fish & Fish Products</i>	298.6	298.6	298.6
<i>Fruits & Vegetables and Animal & Vegetable Oils & Fats</i>	295.6	295.6	295.7
Manufacture of Dairy Products	260.3	260.3	260.4
Manufacture of Grain Mill Products, Starches and Starch Products	338.2	338.2	338.2
Manufacture of Other Food Products	291.0	294.3	295.5
<i>Bakery Products</i>	266.0	269.2	269.8
<i>Sugar, Cocoa, Coffee, Chocolate & Sugar Confectionery</i>	319.8	323.3	327.1
<i>Seasoning, Spices, Sauces, and Condiments</i>	318.5	319.4	320.1
<i>Macaroni, Noodles, Couscous & Other Food Products, n.e.c</i>	344.2	350.6	350.6
Manufacture of Beverages and Tobacco	229.5	230.5 ^r	230.6
Textile, Wearing Apparel and Leather Products	236.5	237.0	237.5
Wood, Wood Products and Furniture	306.0	306.0	306.0
Paper and Paper Products	188.6	188.6	192.6
Chemicals and Chemical Products	239.7	241.7	241.5
Refined Petroleum Products	232.5	235.6	243.9
Rubber & Plastic Products	168.3	168.3	168.3
Other Non-Metallic Mineral Products ¹	269.3	270.6	270.7
Fabricated Metal Products excl. Machinery & Equipment	222.5 ^r	222.8 ^r	223.0
Other Manufacturing n.e.c.	270.6	270.6	277.1

¹ Other Non-Metallic Mineral Products include cement and concrete.

n.e.c. = Not elsewhere classified.

GLOSSARY OF IMPORTANT PPI TERMS

BASE PERIOD

The point in time is used as a reference period for comparison with other periods. The base period used for this PPI is 2008. The values of the base period provide the weights for a price index.

INDUSTRY

An industry consists of a group of establishments engaged in the same or similar kinds of economic activity, e.g., mining and quarrying, manufacturing, etc.

INFLATION

Inflation is the overall general upward movement of the prices of goods and services in an economy.

PRODUCER'S PRICE

The amount the producer receives from the purchaser for a unit of good or service produced as output. It excludes all deductible tax, supplier's retail and wholesale margins, and separately invoiced transport and insurance charges.

PRODUCER PRICE INDEX (PPI)

An index designed to measure the average change in the price of goods and services either as they leave the place of production or as they enter the production process. This index can be based on either output or input prices.

OUTPUT PPI

An output PPI, (as is computed for Jamaica), is a measure of the change in the prices of finished goods and services that are either sold on the domestic market or exported. The prices of finished goods are monitored because they are the best measure of what purchasers will have to pay.

'PURE' PRICE CHANGE

This represents the change in the price of a good or service whose characteristics do not change over time.

WEIGHTS

Weights are a set of numbers between zero and one that sums to unity and are used when calculating averages. It is the value assigned to each item that is indicative of its relative importance when combined with all other items. It is used to represent the impact of a particular price change on the overall index.
